PROFESSIONAL SUMMARY

Results-driven Technical Artist with 6+ years of experience architecting real-time environments, shaders, and XR (AR/VR) experiences in Unreal Engine for the AECO, Metaverse, and entertainment sectors. Proven track record leading cross-functional teams, streamlining production pipelines, and delivering high-fidelity, performance-optimized visual experiences on schedule. Combines strong technical foundations in shader development, Blueprint visual scripting, and pipeline engineering with an artist's eye for lighting, environment design, and visual storytelling.

CORE COMPETENCIES

Real-Time Engines:	Unreal Engine Development (Blueprints, Nanite, Lumen, Baked Lighting, Cinematics, Visual Story telling), Unity 3D, XR
Technical Art:	Shader & Master Material Development, Pipeline Optimization, Lighting, Movie Render Queue Rendering
Design:	Real-Time Architectural Visualization (ArchViz), AECO Visualization, Environment Art, Photogrammetry & Metahumans
3D Art & Leadership:	3D Modeling, Texturing & UV Optimization, Generative AI, Technical Direction, Cross-Functional Team Management

PROFESSIONAL EXPERIENCE

Unreal Tech Artist — PropVR	Apr 2025 – Present Mumbai, India
- Led a cross-functional 10-member team to deliver 4 real-time ArchViz projects on time, improving significant project turnaround. - Architect and streamline production pipelines for game-ready 3D assets and real-time environments, improving throughput and eliminating bottlenecks across the art pipeline. - Own end-to-end project workflows from asset ingestion through final delivery, driving quality benchmarks and seamless stakeholder coordination. - Implement performance and asset optimization best practices in Unreal Engine (LODs, Nanite, texture streaming), elevating visual fidelity while sustaining real-time runtime efficiency. - Author technical guidelines and mentor team members, standardizing production workflows and upskilling junior artists across the studio.	
Technical Artist — Digital Rhombus Studios Pvt Ltd	Aug 2023 – Mar 2025 Mumbai, India
- Developed immersive XR (AR/VR) applications in Unreal Engine, translating creative vision into technically robust, production-ready builds. - Bridged the gap between art and engineering by building custom Blueprint-based visual scripting systems that enabled rapid iteration for non-technical artists. - Developed a robust library of optimized master materials and complex shaders. - Designed and tuned lighting setups to achieve target visual styles while holding to strict real-time performance budgets. - Conducted ongoing R&D into emerging tools and workflows, including Generative AI pipelines. Key Skills: <i>Unreal Engine, Blueprints, Shader & Material Development, XR (AR/VR), Pixel Streaming, Generative AI Workflows, Unity 3D, Team Leadership</i>	
Technical Artist — Motion Dime Pvt Ltd	Apr 2022 – Jul 2023 Mumbai, India
- Optimized 3D models and textures for real-time Augmented and Virtual Reality applications, balancing visual quality against strict performance constraints. - Applied 3D scanning and photogrammetry techniques to build photorealistic Metahuman characters for Metaverse-ready experiences.	

- Built interactive 3D virtual walkthroughs with integrated UI/UX design, improving user engagement and navigation.
- Translated concept art and reference sketches into production-ready virtual characters, environments, and props.
- Collaborated cross-functionally with artists, animators, and programmers to deliver projects on schedule and within budget.

Key Skills: *Unreal Engine, Unity 3D, 3D Visualization, Photogrammetry, Metahuman Creation, Team Leadership*

3D Artist / AR-VR Visualizer — IDEMI

Jan 2021 – Mar 2022 | Mumbai, India

- Delivered 3D visualization and AR/VR solutions for Government of India initiatives, including projects under the Ministry of MSME and other central ministries.
- Prioritized and managed multiple concurrent deliverables, consistently meeting critical delivery deadlines.
- Partnered with art, production, and programming teams to design and optimize interactive application elements, enhancing end-user experience.
- Designed and delivered AR/VR and 3D visualization training courses and workshops for institutional stakeholders.

Key Skills: *3D Environment Design, Level Design, Conceptualization, Augmented Reality, Virtual Reality*

Unreal Engine Generalist (Freelance) — Rhythmic 3D

Jun 2024 – Mar 2025 | Mumbai, India

- Produced high-quality product and architectural visualization (ArchViz) cinematics using Movie Render Queue for premium rendering output.
- Set-dressed photorealistic interior environments, importing and optimizing assets for real-time performance.
- Applied advanced lighting techniques to elevate visual fidelity across rendered scenes.
- Designed and developed interactive ArchViz prototypes with user-facing interactive features to boost client engagement.

Freelance 3D Artist — Mumbai, India

Aug 2019 – Jul 2020

- Interpreted concept art and sketches to create original virtual characters, environments, and props for client projects.
- Designed and developed virtual showrooms and 3D exhibition stall concepts for brand events and activations.

Key Skills: *Exhibition Design, 3D Visualization, Product Design, AR/VR Design*

3D Modeller — IREALITIES Technology Pvt. Ltd.

Jan 2019 – Jul 2019 | Mumbai, India

- Contributed CGI modeling work to feature films and animated TV series, including Super V (2019) and Motherhood Mata Sahib Kaur (2022).
- Produced hard-surface 3D models and terrain sculpts for eLearning content, AI chatbot visuals, and information security awareness programs.

Key Skills: *3D Modelling, Hard-Surface Modelling, Terrain Sculpting*

TECHNICAL SKILLS & SOFTWARE

Real-Time Engines: Unreal Engine, Unity 3D

3D & Content Creation: Autodesk Maya, ZBrush, Blender, Substance Painter

Specializations: Environment Art, Visual story telling, XR Designing

Professional Skills: Technical Leadership, Team Management, Problem Solving, Design Thinking, Rapid Prototyping

EDUCATION

Bachelor of Science: Animation & Visual Graphics — Amity University - Maharashtra, India

Jul 2016 - Aug 2019

HSC (10+2): Science — Ramniranjan Jhunjhunwala College - Mumbai, India

Jun 2014 - May 2016

LANGUAGES

English, Hindi, Marathi, Garhwali, French
